# Badarau Cristian Andrei

### Summary

I am a naturally kind-hearted person who approaches work with a high level of seriousness and dedication. I can be very open-minded towards new ideas and thoughts, always eager to embrace and learn from diverse perspectives.

Having years acquiring knowledge and skills through my studies, i am now seeking to embark on a career in IT.

My goal is to apply and expand upon my existing expertise, contributing to both personal and professional growth.

### Work Experience

#### Cashier

March 2022 - June 2022

- PROFI

4 months Cluj-Napoca | Alimentation | Food and Drinks

Acquired skills and competencies:

Cash register, use of pos cash register

### Education

#### Bachelor's degree, Technical University of Cluj

October 2021 - Present

I've studied some disciplines that really taught me something:

- Mathematics (Linear algebra, analytic geometry, numerical calculus, mathematical analysis, special maths used in engineering);

- Databases : we've worked with them using Oracle Apex;

- Signals and Systems, System Identification, System Theory : in which we've used MATLAB;

- Software Engineering - Java programming in IntelliJ IDEA;

#### High School / Vocational school

September 2017 - June 2021

### Hobbies

Weightlifting, robotics
